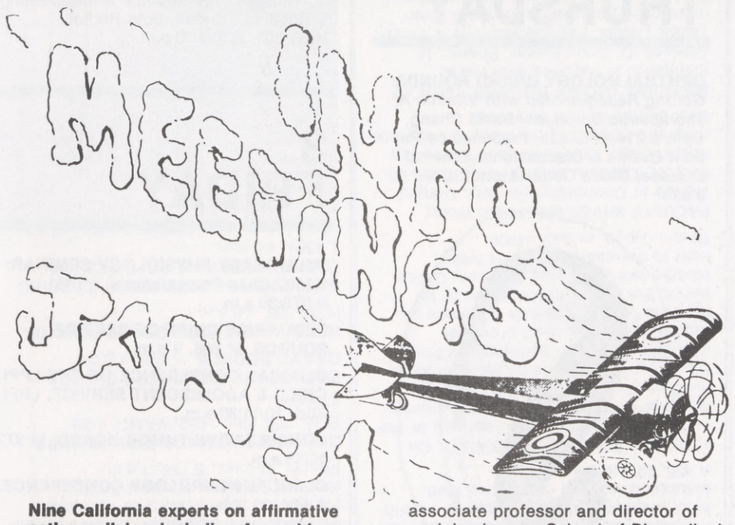
ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

JAN. 28-FEB. 10, 1984



The latest in a series of several UCSF informational planning meetings will be held on campus on Tuesday, January 31, at noon in HSW 303 and at 7:30 p.m. in the Laguna Honda School conference room, 1350 Seventh Avenue.

Presentations will include the proposed UCSF Vision Research Center, to be constructed on the west side of campus, the proposed use of the Poly High School site and other campus projects and programs. These informational meetings are for the purpose of soliciting public comment and discussion of campus planning proposals.

A public hearing on the Draft Environmental Impact Report (DEIR) on the Vision Center will be held on Thursday, February 16, at 7 p.m. in Toland Hall.

Chancellor Krevans has named four new members to the UCSF Board of Overseers and has appointed real estate broker and consultant Walter H. Sullivan, Jr., as the new chair. The four new members to replace emeriti members William K. Coblentz, emeritus chair, Stuart Davis, Charles J. Patterson, and J. Gary Shansby are:

- Eugene L. Friend, president of Howard Properties. He is a director of the Koret Foundation and president of the SF Recreation and Parks Commission.
- Margaret L. Lesher, director of community services and first vice president of corporate affairs of Lesher Communications, Inc. She is a commissioner of the Port of Richmond and chief of protocol for Contra Costa County, and serves as a regent of Holy Names College.
- Alexander R. Mehran, chief executive officer of the Sunset Development Company. He is a trustee of the SF Fine Arts Museums and the Episcopal Diocese of Northern California, and a director of the San Ramon Community Center and The Hamlin School.
- Charles H. Townes, PhD, professor of physics at UC-Berkeley. Recipient of the Nobel Prize in 1964, he serves as a director of General Motors Corporation and is a trustee of the California Institute of Technology and the Carnegie Foundation.

Nine California experts on affirmative action policies, including Assemblyman John Vasconcellos and UC Regent Yori Wada, will participate in a symposium on "Affirmative Action in Higher Education," Wednesday, February 22, from 9 a.m. to 4:30 p.m. in Cole Hall.

Sponsored by the Student Affirmative Action Committee, the Graduate Division, ASUC and GSA, the program includes:

- "Affirmative Action at UCSF: An Historical Perspective." Philip R. Lee, MD, director, Institute for Health Policy Studies. 9:15 a.m.
- "Enforcement Priorities: A Continuing Obligation." Joanne Lewis, former director, State Department of Fair Employment and Housing and former coordinator, UCSF Affirmative Action Office. 10 a.m.
- "The Structure of Racial Discrimination in Higher Education." Thomas F. Pettigrew, PhD, professor of social psychology, UC-Santa Cruz. 11:15 a.m.
- "A Community View." The Rev. A. Cecil Williams, minister, Glide Memorial Church, SF. Noon.
- "Institutional Barriers to Higher Education." Leith Mullings, PhD, associate professor and director of social sciences, School of Biomedical Education, City College, NY. 12:45 p.m.
- "Faculty Mentoring of Minority Graduate and Professional Students: The Irvine Experience." Jaime E. Rodriguez, PhD, professor and dean, graduate studies and research, UC-Irvine. 1:30 p.m.
- "Promoting Academic Excellence Among Minority Students: Why Some Efforts Succeed and Others Fail." Uri Treisman, associate director, Professional Development Program, UC-Berkeley. 2:15 p.m.
- "The Future of Affirmative Action." John Vasconcellos, chair, Assembly Ways and Means Committee. 3 p.m.
- "The Direction of Affirmative Action in the UC System." Yori Wada, chair of the UC Board of Regents. 3:45 p.m.

Chancellor Krevans will present opening remarks, and David Sanchez, MD, associate professor of family and community medicine, and Marilyn Harper, MD, associate clinical professor of anesthesia and chair of the Student Affirmative Action Advisory Committee, will moderate.

NEWS BRIEFS

(Informational meetings continued)

The hearing will give the campus community and members of the public an opportunity to present testimony on the environmental impact of the center.

The public hearing on February 16 will be limited to receiving public testimony on the Draft EIR and will not include a discussion of the project.

For a copy of the Draft EIR contact Eric B. Vermillion, 145 Irving Street, or call x2911.

The winners of the Graduate Student Association's Research Contest in basic science are:

- Edward Morris, physiology, laboratory of Steven Lisberger, PhD, first place, "Smooth Pursuit is Different from Fixation: Effects of Retinal Position and Velocity Errors."
- Mu En Lee, physiology, working with Vice Chancellor David Ramsay, second place, "Elevated Left Heart Pressure Inhibits Renin Release in Response to Systemic Hypotension in Conscious Dogs."

Honorable mention in the basic science category went to:

- Mary Helen Barcellos-Hoff, experimental pathology, laboratory of Dennis Dean, PhD, "Characterization of Variants Isolated from Bis-chloroethylnitrosourea (BCNU)-treated 9L Multicellular Spheroids."
- Richard T. Kao, experimental pathology, laboratory of Robert Stern, MD, "Hormonal Modulation and Activation of Human Breast Carcinoma Collagenolytic Protease through Plasminogen Activator."
- Katherine Lee Wilson, biochemistry/biophysics, laboratory of Ira Herskowitz, PhD, "Regulation of the Yeast Ste6 Gene by the Mating Type Locus."

Winners in the social science category are:

- Margaret Elizabeth Kemeny, health psychology, working with George Stone, PhD, first place, "Power Enactment in the Physician-Patient Interaction."
- Ron Stall, medical anthropology, working with Joan Ablon, PhD, second place, "Spontaneous Remission from Problematic Substance Use: An Inductive Model Derived from a Comparative Analysis of Alcohol, Heroin, Tobacco and Obesity Literatures."

Honorable mention in the social science category went to:

- Polly Walker Bredt, speech and hearing science, working with Richard Flower, PhD, "Analyzing Limited Communication."
- Elizabeth Daniel, human development, working with Christie Kiefer, PhD, "Breast Reconstruction Post-Mastectomy: A Psychosocial Study."

The first annual Mary Singleton Signourney Award has been given by the Department of Psychiatry to support the work of four faculty members:

- Joseph Caston, MD, assistant clinical professor: the reliability of classical psychoanalytic formulations—a research proposal, $4,000.
- Joanna Fanos, PhD candidate in the Human Development and Aging Program: developmental consequences of the death of a sibling following a chronic illness, $3,600.
- Charles Fisher, MD, assistant clinical professor: psychoanalytic treatment of an adolescent patient, $1,500.
- Frank Johnson, MD, professor in the Human Development and Aging Program: dependency in Japan and the United States—a critique of psychoanalytic theories of development, $900.

Funds for the award are given to the Department of Psychiatry by recent donor Mary Singleton Signourney in honor of Bryce Boyer, MD, associate director, psychiatric training, Herrick Hospital, Berkeley, to promote scholarly work and research toward advancing the field of Freudian psychoanalysis.

The Andrew W. Mellon Program in Clinical Epidemiology is offering a 10-week course in research methods on Wednesdays from 9 a.m. to noon, beginning February 15.

The course, which is designed to cover the basic principles of epidemiologic research and specific techniques for conducting clinical trials, is open to UCSF fellows, faculty and others interested in strengthening their research skills. Participants also will develop their own research protocol in the National Institutes of Health format. The course is limited to 10 participants.

For further information or to register contact Maradee Davis, PhD, x5251.

A new series of "Shapedown" classes for overweight teenagers will be held on Wednesdays from 4 to 6 p.m., for 12 weeks beginning February 8 in the Ambulatory care Center. Classes will include 12 group meetings for teens and two parent sessions. Pre-registration is required. Cost is $85.

"Shapedown" was developed by UCSF faculty in the Adolescent Medicine Unit, as a weight management program especially designed to help teens change food and exercise habits, improve self-esteem and lose unwanted pounds.

To register or for further information contact group leader Sarah Scully at x2184.

Seymour M. Farber, MD, UCSF vice chancellor emeritus of public programs and continuing education, has been elected chair of the California Postsecondary Education Commission.

The commission is a citizen board appointed by the legislature and the governor to assure effective use of California's public postsecondary education resources. Specific responsibilities include the biennial planning for education in the health sciences, review of affirmative action efforts by public institutions and analyses of faculty and administrative salaries in public institutions.

One of the country's leading authorities on chest diseases and widely known for his pioneering work in continuing medical education, Farber has served as vice chair of the commission since 1981. He has been on the faculty of the UCSF campus for some 42 years.

The UCSF School of Nursing is offering a master's program in nursing administration this fall in conjunction with Stanford University Hospital.

The new program is being offered at Stanford so that nurses in Santa Clara, Santa Cruz and Monterey counties may take graduate courses at a location nearer to them. The three-year Outreach Program in Nursing Administration also will allow students to attend school while continuing to work.

The pilot program, offered by the Department of Mental Health and Community Nursing, is designed to prepare scholarly leaders in nursing administration for mid-level and executive positions in health care settings. The majority of classes will be taught by UCSF faculty at Stanford, which will be a satellite of the UCSF School of Nursing.

The core curriculum is essentially the same as that offered on this campus. Application deadline for the fall quarter is March 1. For further information and application packets, contact the School of Nursing, Office of Student Affairs, N 319X, UCSF, x1435.

A reception honoring community volunteers and staff of the five Area Health Education Centers (AHEC) within the UCSF regional AHEC was held on January 25 at the Faculty-Alumni House. Past and present members of the individual AHEC community advisory councils and boards of directors were presented with certificates of achievement during the reception, which was hosted by Dean Rudi Schmid, MD.

The honored volunteers collectively have contributed more than 3,000 hours of their time since 1979.

Recently the City of San Francisco voted on an ordinance regarding smoking in the workplace (Proposition P). While the University is not bound by city ordinances, under Article IX of the California State Constitution, it is the custom of this campus to abide by their intent wherever possible, according to Chancellor Krevans.

As a health sciences university, we have a particular interest in this regulation, Krevans adds, and are, therefore, asking that the campus carry out the intent of the ordinance at the departmental or unit level.

The fourth annual Chancellor's Distinguished Lecturer for the Public Understanding of Science will be John Maddox, editor of the British journal *Nature.*

Maddox, one of the few science journalists who began his career as an academic, will present his major address, "Are We Making Progress?" on Thursday, March 1, at 4 p.m. in Cole Hall. During the rest of the week of February 28, he will meet with faculty and students in small informal sessions.

A chemistry graduate from Oxford, Maddox spent from 1949 to 1955 as a lecturer in theoretical physics at the University of Manchester and the following nine years as science editor of the *Manchester Guardian,* during which time he was a visiting scientist at Rockefeller University for one year.

From 1964 to 1966 Maddox was in charge of the Nuffield Foundation Science Teaching Project, which supervises the entire curriculum for high school science in Britain, and returned in 1973 to serve as director of the foundation for another seven years. During the interim, 1966 to 1973, he served as editor of *Nature* and in 1980 resumed that position.

The Chancellor's Lectureship brings a distinguished national science writer or communicator to UCSF each year for a dialogue with faculty, students and staff, as part of an effort by the campus to strengthen public understanding of biomedical science.

Previous lecturers were Harold M. Schmeck, Jr., science writer for the *New York Times* (1982), Arnold S. Relman, editor of the *New England Journal of Medicine* (1981), and Barbara J. Culliton, news editor, *Science* (1980).

REMEMBER: Several parking changes will go into effect on Parnassus Avenue around the first week of February, including creating yellow zones, towaway zones and relocating some shuttle locations. For further information contact David Layne at x2911, or see the January 14 issue of *Today & Tomorrow.*

The campus community is invited to a reception honoring H. Barrie Fairley, MB, BS, for his five years of service as associate dean for the School of Medicine at SFGH, on Thursday, February 2, from 3:30 to 5 p.m. in the SFGH hospital cafeteria. Hosts are Geoffrey Lang, SFGH executive administrator, and Rudi Schmid, MD, dean of the School of Medicine.

Fairley, who resigned effective December 31 to devote more time to academic anesthesia, has been succeeded by David Werdegar, MD, MPH, professor and chair of the Division of Family and Community Medicine.

The 1983 UCSF/United Way Campaign was a great success with 31 percent of the campus contributing over $116,000 as compared to only 9 percent and $70,000 in 1982. All those who helped as donor representatives during the campaign were treated to a thank-you party on January 20.

HONORS & AWARDS

Walther Stoeckenius, professor, cell biology, biochemistry/biophysics & CVRI: Recipient of the Alexander von Humboldt Award from the Humboldt Foundation in Bonn, West Germany, "in recognition of his past accomplishments in research and teaching . . . for a 12-month stay to carry out research of his own choice." Stoeckenius is at the Max Planck Institutes of Dortmund and Frankfurt through October of this year doing research on light energy and signal transduction.

Helen D. Stein, associate clinical professor, psychiatry; associate director, UCSF/Fresno Psychiatric Residency Training Program: Elected a fellow of the American Psychiatric Association.

APPOINTMENTS

Mark Jordan: Appointed alumni affairs coordinator. Most recently, he served as director of alumni relations for the UC-Berkeley School of Business, where he was the assistant editor of the quarterly magazine, *CalBusiness,* and conducted the newsletters for various business alumni chapters. Jordan will coordinate campus-wide alumni activities on behalf of the Chancellor's Office and will assist the independent alumni associations of the schools of Dentistry, Nursing and Pharmacy.

Edward C. Geehr: Appointed chief of emergency medicine at SFGH, effective January 1, replacing Frank R. Lewis, Jr., professor of surgery. A UCSF assistant clinical professor of medicine since 1981, Geehr for the last three years served as medical director of SF City and County Emergency Medical Services. Lewis remains as SFGH assistant chief of surgery.

Millie Hughes-Fulford, assistant professor, medicine, at VAMC: One of four scientists—and the second woman—selected for a Spacelab IV post, now slated for take off in January 1986.

David J. Sanchez, Jr., associate professor, family and community medicine: Awarded the Robert Wood Johnson Service Medal for his five-year service on the Municipal Health Services Program, a five-year project sponsored by the Johnson Foundation, the US Conference of Mayors and the AMA, to improve access and care for the needy in Cincinnati, St. Louis, Milwaukee, Baltimore and San Jose.

VISITORS

Astrid Noklebye Heiberg, state secretary, Ministry of Social Affairs, Norway; associate professor, medicine, University of Oslo Medical School. Visited UCSF on January 18 under the auspices of the US Information Agency's International Visitors Program. Her program included meeting with Drs. Steven Schroeder, Dennis Brimhall, Carroll Estes, Joseph C. Barbaccia, David Cox, Herbert Boyer and Leon Epstein, and Chancellor Krevans, Vice Chancellor Ramsay and Dean Schmid.

PUBLICATIONS

E. Martin Spencer, associate clinical professor, medicine: Editor of *Insulin-like Growth Factors/Somatomedins: Basic Chemistry, Biology, Clinical Importance* (Walter De Gruyter, Berlin, New York, 1983).

Julius H. Comroe, Jr., director emeritus, CVRI; professor emeritus, physiology: Author of *Exploring the Heart* (W.W. Norton & Co., Jan. 1984).

IN MEMORIAM

Hollis B. Gray, principal administrative analyst, Hospitals and Clinics. A member of the campus community for 24 years, he worked in Hospital Administration since 1968, where he had responsibility for accreditation and licensure activities, gift and endowment funds and liaison responsibility for several campus services. Family suggests donations be made to the American Cancer Society or to the UCSF Hospitals and Clinics, for the care of cancer patients.

W. Peter Horen, supervisor, Tropical Diseases Laboratory, Department of Epidemiology and International Health. A widely-recognized specialist in parasitology, he was a member of UCSF for 33 years, and began in the Tropical Diseases Laboratory in 1964, bringing it into the forefront as a reference laboratory of specialized diagnostic centers. He gave personalized instruction to many pathology residents and other medical graduates.

Paul Dague, clinical psychologist, who counseled gay patients at the UCSF Kaposi's Sarcoma Clinic. He was a former executive director of Operation Concern, a San Francisco out-patient clinic offering counseling for gays, lesbians and their families.
